

SDX PLATFORM | FIBER OPTIC ENCLOSURES, ADAPTER PLATES, AND ACCESSORIES

RACK MOUNT ENCLOSURES

- Removable sliding tray option allows for easier and faster installation
- Constructed of 16Ga steel for robustness

2000i SDX RACK-MOUNT ENCLOSURES	LEVITON #	CORNING #
[A] 1RU, empty, sliding tray, accepts 3 adapter plates	5R1UH-S03	PCH-01U
2RU, empty, sliding tray, accepts 6 adapter plates	5R2UH-S06	PCH-02U
4RU, empty, sliding tray, accepts 12 adapter plates	5R4UH-S12	PCH-04U

1000i SDX RACK-MOUNT ENCLOSURES	LEVITON #	CORNING #
[B] 1RU, empty, accepts 3 adapter plates	5R1UM-F03	N/A
1RU, empty, with sliding tray, accepts 3 adapter plates	5R1UM-S03	CCH-01U
2RU, empty, accepts 6 adapter plates	5R2UM-F06	N/A
2RU, empty, with sliding tray, accepts 6 adapter plates	5R2UM-S06	CCH-02U
3RU, empty, accepts 9 adapter plates	5R3UM-F09	CCH-03U
4RU, empty, accepts 12 adapter plates	5R4UM-F12	CCH-04U

500i SDX RACK-MOUNT ENCLOSURES	LEVITON #	CORNING #
[C] 1RU, empty, accepts 3 adapter	5R1UL-F03	N/A
2RU, empty, accepts 6 adapter plates	5R2UL-F06	N/A

WALL-MOUNT ENCLOSURES

- Mini size offers density up to 24 fibers, option to lock, and stackable
- Low-profile depth on small size minimizes protrusion from wall
- Constructed of 16Ga steel for robustness

WALL-MOUNT ENCLOSURES (NO LOCK)	LEVITON #	CORNING #
Mini, empty, accepts 1 adapter plate	5WMNT-01C	SPH-01P
[D] Small, empty with dual door, accepts 2 adapter plates	5WSML-02C	WCH-02P
Medium, empty with dual door, accepts 4 adapter plates	5WMED-04C	WCH-04P
Large, empty with dual door, accepts 12 adapter plates	5WLRG-12C	WCH-CLSC-12P

SDX SPLICE MODULES

- Patented internal Shuttered LC option eliminates dust plugs, reducing waste and speeding deployment
- Integrated latching tabs allow for one-handed insertion/removal

SDX FUSION SPLICE MODULES	LEVITON #	CORNING #
12-Fiber, OM3, Duplex LC Shuttered (Aqua)	SPLCS-2AL	CCH-CS12-AD-P00TE

SC	49991-LSC	95-050-41	49991-SSC	95-200-41

FASTCAM

- No proprietary tools required for unnecessary expense
- Reterminate up to 3x for higher yields
- Termination can be done on work bench or standing up for added flexibility

All FastCAM connectors require a precision cleaver and a tool kit.

FAST-CURE™ ADHESIVE STYLE

INDOOR/OUTDOOR, PREMISE DISTRIBUTION, TIGHT BUFFER, PLENUM

INDOOR/OUTDOOR PLENUM DISTRIBUTION CABLE

- Designed for simplified installation in Plenum or Riser environments, as well as Interbuilding Backbone connections
- Utilizes DryGel water blocking system in the cable core

- Operating temperature -40C to +75C
- UV and fungus resistant jacket
- 24-hour Quick Ship available

Stock jacket colors identify fiber types

ARMORED INDOOR/OUTDOOR, PREMISE DISTRIBUTION, TIGHT BUFFER, PLENUM

INDOOR/OUTDOOR PLENUM DISTRIBUTION WITH ARMOR

- Aluminum interlocking armor provides tremendous value when compared to installing cable inside of innerduct

- Armor remains flexible due to the spiral wrap armoring process
- More robust interlock armor for real world situations
- 24-hour Quick Ship available

Stock jacket colors identify fiber types

ADVENTUM™ INDOOR/OUTDOOR PLENUM LOOSE TUBE

PLENUM LOOSE TUBE

- Place ADVENTUM™ anywhere in a network, bypassing the traditional transition points required in most installations

- Save significant installation time and cost, because there is no cleaning of gels required for installation
- Find ideal for fusion splicing in Equipment Facility or Equipment Room

ADVENTUM INDOOR/OUTDOOR PLENUM LOOSE TUBE WITH ARMOR-TEK™

PLENUM LOOSE TUBE WITH ARMOR

- Easy one-pull installation into indoor, indoor/outdoor, building and campus backbone environments
- Saves up to 25% total installed cost over OSP cable

- Jacketed armor remains flexible due to the spiral wrap armoring process
- Aluminum interlock offers 4 to 8 times the crush resistance of standard dielectric fiber cable
